## KEY FEATURES & BENEFITS

<b>FRAME</b>	FSC Certified Timber Frame	A strong frame constructed with timber sourced from sustainably managed forests provides an environmentally conscious, solid and long-lasting base to the lounge suite
<b>FOUNDATION</b>	Seat base includes pocket coil springs and foam layers	Individual spring coils are wrapped in fabric and encased in a pocket, ensuring the springs in the whole cushion work at the same time & preserving the shape of the seat base for long-term usage
<b>SUPPORT</b>	Seat backs supported by webbing straps	Strong and durable straps made from nylon/polyester. Webbing support offers a good level of elasticity and firmness to deliver a comfortable seating solution
<b>FOAM</b>	Seat cushions made from high density foam	The combination of different density D16 and D30 foams ensure long-lasting durability, optimal support, and enhanced comfort for users making the sofa more inviting and enjoyable for daily use
<b>FABRIC</b>	Flex fabric (95% polyester / 5% nylon)	Available in a choice of Granite (dark grey) or Eclipse (blue) coloured Flex fabric
